

## ECCTA Update – 18 November

When the **ECCTA updates** go live on **18 November**, there will be a few important changes and temporary behaviours to be aware of:

### 1. Checking Submission Statuses

- Users can confirm submission statuses by going to **Filing > Check e-filing**.
- Please note that it may take a few days for submission status updates to appear in the **Action Station** or be reflected in **email notifications**, as we'll be monitoring and ensuring that submissions are processing correctly during the initial rollout.

### 2. PSC Verification (PSCVS01 UID Notification Form)

- The new form is available under **Filing > PSC Forms > PSCVS01 UID Notification**.
- Please note that CS01 forms must now include all Director UID codes, filings submitted without them will almost certainly be rejected by Companies House.
- For the first few days after the update, this form may not automatically generate into the filing Centre, but this will be activated once the process has been fully tested.

### 3. PSC UID Notification Dates

- In case you have queries about PSC UID notification dates, you can try the Recalculate button in the PSC ID Table under **Select All > IDs Required > PSC ID table**. This will refresh the dates using the latest Companies House guidance.
- The system will soon be updated so that these dates automatically sync from Companies House, so we recommend only using this option if needed.
